## PressureSurface TripleLayer<sup>PLUS</sup>

**The three layered, zoned design of this very high risk pressure surface is ideal for heavier patients with poor mobility or uncertain skin sensitivity.**

Made from premium material, each foam layer is made of varying densities to maximise the redistribution of pressure. A top layer of high density, temperature sensitive, visco-elastic convoluted memory foam conforms to the body's shape, working in combination with the higher resistance support layer to disperse pressure evenly. The core layer and edges provide form, strength and stability.

The convoluted memory foam improves ventilation to the skin's surface and increases the overall weight capacity to 160 kilograms. Foam is covered by an inner cotton cover for added protection.

The polyurethane top cover features multi-stretch material for reduced shear and friction. With waterfall skirt to provide protection from moisture ingress, seams are stitched for strength, then welded or tape sealed for maximum infection control. A PVC slip-resistant base helps maintain product position on bed. The cover is also pre treated for protection against dust mites, mould, mildew and bacteria and includes an asset management panel for recording facility details.

- ✓ convoluted memory foam increases weight capacity
- ✓ maximum pressure reduction surface
- ✓ six hinge system to conform to profiling beds
- ✓ max user weight 160 kg

**Formerly known as  
3 Layer with Eggshell**

## PressureSurface TripleLayer<sup>PLUS</sup>

Vapour permeable, bacteriostatically treated, fire retardant and water resistant cover

Seams are stitched, welded and taped for maximum infection control

Multi-density foam construction plus added benefit of convoluted top layer; protected by an inner cotton cover

Six hinge system to conform to profiling beds

ITEM	<b>TripleLayer Plus</b>	Double Layer Extension
CODE	<b>BSPS0454</b>	BSPS0472
CAPACITY	160 kg	NA
HEIGHT	150 mm	150 mm
WIDTH	865 mm	865 mm
LENGTH	1960 mm	200 mm
TOP COVER	Latex free polyurethane	
WARRANTY	6 year body, 2 year cover Product must be removed from vacuum packaging prior to the 'Reconstitute By' date printed on the carton. Failure to do so will void the product warranty.	
TURN	1 way	
COMPLIANCE	<b>ARTG 176837</b>	
FIRE RETARDANCY	Conforms to BS7177:2008 (medium hazard)	
CARE	To clean, wipe down the top cover and PVC base with warm water and a solution of sodium hypochlorite or similar (up to 10,000 ppm available chlorine). Top cover can be machine washed up to 80°C.	
ACCESSORIES	Replacement top cover <b>BSPS0466</b>	
CARTON SIZE	950 x 330 x 330 mm	

  
less pressure, more support
